WESTWOOD OPENS DOORS IN LOVELAND

December 10, 2010

MINNEAPOLIS, MN – [Westwood Professional Services, Inc.](#)

The early December target date to complete the build-out of Westwood’s new Loveland, Colorado office has been met.

Westwood’s expansion to Loveland began with the strategic hire of an established local professional surveyor, Michael Lang, in June of 2010. As the Loveland office director, Lang has been successful in leveraging local expertise and relationships to quickly build business for the firm.

During the summer months, Westwood was awarded several land and energy development projects including Cedar Creek Wind Farm, Lake Vista Village, and Windsor Wellness Clinic. These projects required survey services and resulted in the key hires of local surveyors, Mike Massey and Reade Roselles, and administrative specialist, Mindy Fosdick. Massey and Roselles are experienced project surveyors, project/field managers, and crew chiefs. Many of Westwood’s Loveland-based staff members have previous experience working with each other on projects.

Lang is optimistic on the area’s continued growth, “Locally we are seeing increased interest in projects moving forward. Regionally there is a keen interest in energy projects and that is great for Westwood. With our local staff and Westwood’s additional national resources, we are prepared to offer a variety of services to clients and projects.”

On establishing a Westwood office in Loveland, Westwood President, Paul Greenhagen says “Loveland is a perfect fit for Westwood. We have several projects in the region and from this location we are able to better serve our clients.” Greenhagen credits the Northern Colorado Economic Development Committee for their support in a successful opening in Loveland for the firm, “NCEDC has graciously worked with Westwood every step of the way. We feel very welcomed to the area and are excited to be a part of such a progressive city.”

Westwood developed a Colorado presence in 2008 when Mike Noonan was hired to lead the National Siting and Land Rights division. Noonan's group has grown locally and nationally with expanded services for land and energy clients.

Josh Keating, one of the firm's Siting and Land Rights Specialists, began working with Westwood in their Minneapolis office. Keating has since moved to Fort Collins and joined the team in their new office located at 4045 St. Cloud Drive, Suite 180, Loveland, Colorado.

About Westwood:

Westwood Professional Services, Inc. is a multi-disciplinary consulting firm providing complete and sustainable solutions to Land and Energy development clients nationwide. Westwood's services include land surveying, aerial mapping, GIS, civil engineering, siting and land rights, jurisdictional and regulatory permitting, planning, environmental, cultural resources, landscape architecture, transportation engineering, visualization, construction management, and NPDES & SWPPP compliance. Westwood was established in 1972 and has multiple U.S. offices.
