## **BECKMANN AND HAGLUND TRANSITION IN TRANSMISSION**

April 26, 2011

[Westwood Professional Services, Inc.](http://www.westwoodps.com), a national land and energy development consultant, has announced leadership transitions in their transmission market group. Senior project manager, Dan Beckmann, PE, has been promoted to director of transmission development; a role previously held by Rick Haglund, PS. Haglund has been named director of energy project services.

President, Paul Greenhagen, sees the transitions as a necessary step in achieving optimal service for energy clients, “Dan’s in-depth knowledge of renewable energy development and power distribution processes is of great value to our transmission clients – and he is devoted to client satisfaction. That mix enables Dan to provide clients a unique perspective with their best interests in mind.” Greenhagen adds, “Rick has been Westwood’s energy project service liaison for years. His broad experience with energy clients makes him a perfect candidate to drive broad energy business objectives at a national level.”

In his new role, Beckmann will lead and manage business development efforts and set operational goals for Westwood’s transmission business. To ensure a smooth transition from his previous position as senior project manager in Westwood’s energy engineering group, he will maintain certain key wind and solar market client and project duties.

As director of energy project services, Haglund will be collaborating with Westwood’s energy market leaders to identify and pursue new clients and projects. He will support broad business development efforts for utility-scale wind, solar, transmission, and oil, gas, and pipeline markets across the country.

**About Westwood:**

[Westwood Professional Services, Inc.](#) (Westwood) is a multi-disciplinary consulting firm providing complete and sustainable solutions to Land and Energy development clients nationwide. The firm provides solutions to support the development of projects from concept to completion. Those services include land surveying, aerial mapping, LiDAR, GIS, civil engineering, renewable system design, siting and land rights, planning, environmental, cultural resources, landscape architecture, transportation engineering, visualization, construction management, and NPDES & SWPPP compliance. Westwood was established in 1972 and serves clients across the country from multiple U.S. offices.
