TRAFFIC ENGINEER, NICHOLAS ERPELDING, JOINS WESTWOOD

February 25, 2008

Westwood Professional Services, Inc., a Minnesota-based Land and Energy development consultant, is pleased to announce the addition of Nicholas Erpelding as a Traffic Engineer. Erpelding joins Westwood's Traffic Engineering Group working in close collaboration with the Commercial Land Development group. He is licensed as a Professional Engineer (PE) in Minnesota and North Dakota, as well as a Professional Traffic Operations Engineer (PTOE).

Erpelding has seven years of traffic and transportation civil engineering experience with a focus on tasks vital to the support of commercial land development projects. His responsibilities have included traffic operational analysis, roadway and roundabout geometric design, preparation of traffic impact studies and travel demand management plans, development of traffic signal design plans and specifications, and support of projects through the public agency review process.

About Westwood:

Westwood Professional Services, Inc. is a multi-disciplinary design firm offering complete solutions to Land and Energy development clients nationwide: planning, engineering, surveying, sustainability, landscape architecture, visualization, environmental, cultural resource management, GIS, traffic, parking & transportation, construction services, and erosion control services. Westwood was established in 1972 and has over 185 employees.
