WESTWOOD'S ENERGY TEAM CONTINUES TO GROW

May 27, 2008

EDEN PRAIRIE, MN – Westwood Professional Services Inc., a national energy and land development consultant, is excited to announce the addition of Rick Packer to the Energy Services group. Packer will assist in the land / lease side of Westwood's wind business. He will be responsible for contacting landowners in proposed wind farm developments to educate them on leases and secure the land for Westwood's energy clients.

Packer has been active in the land development industry for almost 25 years, delivering medium to large-scale development projects to his builder clients. Packer spent 10 years in the public sector as a Senior Planner and as a Council Member for the Metropolitan Council, one of the few regional planning agencies in the United States. Packer has spent considerable time lobbying on behalf of the building industry at both the local and national level.

About Westwood:

Westwood Professional Services, Inc. is a multi-disciplinary design firm offering complete solutions to Energy and Land development clients nationwide: energy real estate services, planning, engineering, surveying, sustainability, landscape architecture, visualization, environmental, cultural resource management, GIS, traffic, parking & transportation, construction services, and erosion control services. Westwood was established in 1972 and has 165 employees in four offices.
