WESTWOOD STAFFS UP AERIAL MAPPING AND SURVEY IN KANSAS

June 12, 2009

[Westwood Professional Services, Inc.](#) is proud to announce the expansion of staff in their aerial mapping and survey teams. Michael Crain and Ray Joslyn have joined the ETG, A Division of Westwood (ETG) aerial mapping team in Westwood's Overland Park, Kansas office. Additionally, Jay Wittstock, Survey Manager, has relocated from Minnesota to the Kansas office to grow the survey group. Wittstock recently added surveyor, William Knight to the Kansas survey team.

Crain is a photogrammetric technician with 19 years of experience providing aerial mapping solutions to electric utilities, T&D designers, and transmission developers. Crain joins the team from Advanced Mapping Technologies in Traverse City, Michigan. He brings skills in analytical programming, a dedicated work ethic, and new enthusiasm to the ETG team. "I am thrilled to lend my mapping experience to environmental projects like wind turbine farms, transmission power lines, and for international developments." "ETG is an exciting, growing company."

Joslyn is a photogrammetric programmer and past ETG employee who provided aerial mapping solutions to clients as well as programming for ETG's proprietary Scale Accurate Digital Imaging (SADI) process. In addition, Ray is an American Society for Photogrammetry and Remote Sensing (ASPRS) certified GIS Professional. "I am excited to be back with the ETG team. As experts in photogrammetry, they are positioned well in an exciting and growing industry. I look forward to being involved in new and challenging opportunities at ETG/Westwood and to support the development of SADI as we move forward."

Westwood Professional Services, Inc. announces the strategic relocation of Jay Wittstock, Survey Manager, to the ETG, A Division of Westwood (ETG) office in Overland Park, Kansas. Wittstock transitioned from Westwood's St. Cloud office in response to a growing demand for survey services in the central U.S. Wittstock will focus on serving national clients and growing the survey team in Kansas. Wittstock is a professional licensed surveyor in Kansas, Colorado, Wyoming, Montana, the Dakotas, Minnesota, Wisconsin, and Indiana and one of two Westwood Certified Federal Surveyors (CFedS). His work in both the public and private sectors is a significant benefit to communications across a broad range of clients and projects.

William Knight joins Westwood's survey team in Kansas with 10 years of experience providing land survey services to clients in Missouri and Kansas. Knight is a professional licensed surveyor in Missouri.

About Westwood:

Westwood Professional Services, Inc. is a multi-disciplinary consulting firm providing complete and sustainable solutions to Land and Energy development clients nationwide. Westwood's services include ROW and land acquisition, planning, engineering, surveying, aerial mapping (ETG, a Division of Westwood), GIS, environmental, landscape architecture, visualization, cultural resource management, traffic, parking and transportation, construction services, and NPDES permitting and compliance.
